To Whom It May Concern:

By abiding by San Antonio and Texas state orders, Club 12 correctly ceased physical operations due to the COVID-19 pandemic. Despite the crucial services that Club 12 provides, the building closed in accordance with the City's "Stay Home, Work Safe" measures. The measures aligned with recommendations from the CDC who advised limiting physical interactions as a means of reducing virus transmission. While closures have induced hits to many organizations, potentially limiting the effectiveness of services offered, the decision for Club 12 to temporarily close was both mandated by local and state authorities as well as prudent for the health of its members. I thank you for your compliance during these trying times.

Sincerely,

RON NIRENBERG

Mayor, City of San Antonio
